#### **Assessment of Current State**

Using the SWOT Matrix, assess the current state of the business and identify the key Strengths, Weaknesses, Opportunities and Threats.

#### The elements of the SWOT Matrix

- **Strengths:** capabilities or characteristics of our business that give us an advantage over competitors.
- **Weaknesses:** characteristics or capability gaps that place us at a disadvantage relative to others in the marketplace.
- **Opportunities:** elements that the company could exploit to its advantage.
- Threats: elements in the competitive environment that could cause trouble for our company.

### **Applying the Strategic Choice Cascade**

As you work through the simulation, keep the strategic choice framework in mind.

The first four questions of cascade are the most relevant to this exercise. Spend some time with your team to align on a strategy before making choices in the simulation.

Remember that the bi-directional arrows indicate the iterative nature of completing the cascade; it is likely and expected that making one choice will prompt revisiting an earlier choice.
